Experience

Tumil Holdings Co. Ltd	Yangon, Myanmar
Software Developer	11/2024 - Present

Developed in-house projects to support and enhance operations across branch companies, ensuring seamless integration, scalability, and efficiency

- Led the development of the ONOE Project, partnering with MESC to build an advanced electrical ground survey system, providing critical technical solutions for efficient project execution.
- Developed and launched the entire ONOE Project within a tight deadline in a high-pressure environment while ensuring code quality and functionality
- Maintained and updated Tumil Holdings Company's HR system (Solo Version mobile app), enhancing performance and user experience.
- Delivered both the ONOE Project and the Solo Version HR app on schedule, ensuring smooth deployment and functionality.

Citizens Pay	Yangon, Myanmar
Frontend Developer	12/2023 - 9/2024

Develop and designed points rewards system project for rewarding Citizen Pay's Users and contributing in POS project

- Orchestrated the complete development lifecycle of the Points Reward System project, actively engaging with users, QA team, and stakeholders; enhancements resulted in a 40% increase in user engagement and retention.
- Performed ongoing maintenance and updates for the GNG's POS Project and ensuring alignment with evolving job requirements and industry standards

Partner Associates Int'l Co., Ltd	Yangon, Myanmar
Associate Developer	06/2023 - 12/2023

Developed advanced technical solutions to digitize Burma's social security system, aiming to optimize access and services for millions of workers

- Designed and developed responsive and functional frontend reusable components using Angular, implemented across multiple panels to ensure cross-panel compatibility and scalability, resulting in an increase in efficiency by 60%.
- Collaborated cross-functionally to deliver high-quality solutions and actively contributed in Agile stand-up meetings for efficient workflow coordination.

Consumer Goods Myanmar Co., Ltd	Yangon, Myanmar
Frontend Developer	11/2021 - 05/2023

Developed and maintained in-house ERP projects for HR, distribution, finance, and more departments and contributed and collaborated with OK Dollar Myanmar Co., Ltd.

- Leveraged cutting-edge technologies like JavaScript, TypeScript, React.js, and Angular to deliver innovative web solutions, optimizing performance and enhancing user experience.
- Translated UI/UX wireframes into visually stunning, functional web applications that exceeded client expectations by 90%.
- Collaborated and ensured clear communication with overseas developers for the development and maintenance of ERP projects.
