Dedicated and innovative developer with 3 years of experience and a passion for crafting responsive websites and mobile development. Proficient in React.js, Next.js and Angular, coupled with a deep understanding of User Experience and User psychology. Open to relocation for exciting career opportunities abroad, eager to bring skills and enthusiasm to new challenges and environments.

EXPERIENCE

Frontend Developer 12/2023 - Present

Citizens Pay Yangon, Myanmar

Develop and designed points rewards system project for rewarding Citizen Pay's Users and contributing in POS project

- Orchestrated the complete development lifecycle of the Points Reward System project, actively engaging with users, QA team, and stakeholders; enhancements resulted in a 40% increase in user engagement and retention.
- Led discussions to drive UI/UX enhancements, elevating user experience and team synergy, leading to a 30% improvement in project turnaround time, fostering a more cohesive and productive work environment.
- Performed ongoing maintenance and updates for the GNG's POS Project and ensuring alignment with evolving job requirements and industry standards

Associate Developer 06/2023 - 12/2023

Partner Associates Int'l Co., Ltd Yangon, Myanmar

Developed advanced technical solutions to digitize Burma's social security system, aiming to optimize access and services for millions of workers

- Designed and developed responsive and functional frontend reusable components using Angular, implemented across multiple panels to ensure cross-panel compatibility and scalability, resulting in an increase in efficiency by 60%.
- Collaborated cross-functionally to deliver high-quality solutions and actively contributed in Agile stand-up meetings for efficient workflow coordination.
- Enhanced software quality with an automated testing framework, achieving 80% code coverage, reducing manual tests and speeding up the QA process.

Frontend Developer 11/2021 - 05/2023

Consumer Goods Myanmar Co., Ltd Yangon, Myanmar

Developed and maintained in-house ERP projects for HR, distribution, finance, and more departments and contributed and collaborated with OK Dollar Myanmar Co., Ltd.

- Leveraged cutting-edge technologies like JavaScript, TypeScript, React.js, and Angular to deliver innovative web solutions, optimizing performance and enhancing user experience.
- Translated UI/UX wireframes into visually stunning, functional web applications that exceeded client expectations by 90%.
- Managed production deployment, providing continuous support for bug fixes, user feedback, and UX optimization.
- Collaborated and ensured clear communication with overseas developers for the development and maintenance of ERP projects.

STRENGTHS

Efficient Code Writing

Proficient in React and Angular, adept at optimizing code for performance while translating UI/UX designs into functional code.

Problem Solving

Proficient in resolving intricate issues with innovative solutions that enhance system performance.

Collaboration

Thrives in team settings, quickly adapting to new technologies and project needs with a positive, collaborative approach.
